WORK EXPERIENCE

Senior Associate – Client Services, Atheneum Partners, Seoul, South Korea **September 2024 – Now**

- Act as the primary liaison for global consulting firm clients, gaining a deep understanding of their research objectives and ensuring seamless communication throughout the project lifecycle.
- Manage end-to-end project execution, from scoping and expert identification to final delivery, ensuring timely and high-quality insights tailored to client needs.
- Identify, recruit, and connect industry experts across diverse sectors and geographies through strategic outreach, market analysis, and relationship-building.
- Cultivate and maintain strong relationships with both clients and experts, optimizing engagement strategies while ensuring compliance with company policies and industry regulations.

Deal Desk Analyst, Amazon, Bellevue, WA **July 2023 – April 2024**

- Supported enterprise sales teams by shaping deal economics, pricing structures, and Statements of Work in alignment with margin and revenue objectives
- Partnered with Sales, Finance, and Legal to negotiate commercial terms and accelerate contract approvals, reducing turnaround time across deals
- Produced deal-level analytics and insights enabling sales leadership to optimize pipeline performance and win rates
- Applied data-driven pricing adjustments based on market and client feedback, directly supporting increased deal competitiveness and customer satisfaction

Marketing Operations Intern, Magnit, San Francisco, CA **June 2022 – February 2023**

- Supported B2B go-to-market strategy through performance analytics and pipeline insights, contributing to a 7% increase in conversion rates
- Built Total Addressable Market (TAM) models to identify expansion opportunities and white-space growth across EMEA markets
- Partnered with senior marketing leadership on budget planning, revenue forecasting inputs, and operational optimization

Finance Sergeant, Republic of Korea Army, South Korea **November 2019 – June 2021**

- Owned financial operations and budgeting for a military unit, ensuring accuracy, compliance, and leadership-level reporting
- Provided financial insights and recommendations supporting command decision-making and operational planning
